MNIT Jaipur–University of Saskatchewan MoUs: Dual Degree in Chemical Engineering and Research Collaboration

On 29th October 2025, MNIT Jaipur hosted an MoU signing ceremony with the University of Saskatchewan, Canada. The agreements were signed by Prof. Narayana Prasad Padhy, Director of MNIT Jaipur, and Prof. Baljit Singh, Vice President (Research) at the University of Saskatchewan. The event was attended by Deans, Heads, and faculty members from the Department of Chemical Engineering and other departments.

A delegation from the University of Saskatchewan visited MNIT Jaipur from 29th to 30th October 2025. The team included Prof. Baljit Singh, Prof. Michael Bradley (Dean, College of Engineering), and Prof. Ajay Dalai (Professor, College of Engineering).

Two important Memorandums of Understanding (MoUs) were signed to strengthen academic and research collaboration between MNIT Jaipur and the University of Saskatchewan. One MoU establishes a Dual Degree Ph.D. Program in Chemical Engineering, enabling students to pursue research and coursework across both institutions. The other MoU promotes joint research initiatives, internships, and the exchange of students, faculty, and staff, along with the development of shared academic programs. Notably, students admitted to the Dual Degree Ph.D. Program will receive scholarships funded by the University of Saskatchewan, offering valuable international exposure and enhanced research opportunities.
